Noble and elegant appearance
The light drop design can bring you into the world of shape more gently.
The drop wraps around the wrist, showing elegance everywhere. 1.61 inch
retro-style watch screen, 400-900 resolution, full-screen view of information.

7.9mm thin and light
It adopts a foldable square screen design, with a smooth transition
between the aluminum alloy watch body and the slightly curved glass.
The watch body is as thin as 7.9mm and as light as 22.4g, bringing a thin
and exquisite experience. It is equipped with digital crown on the side,
which has a delicate touch, and is equipped with a linear motor.
Make every step meaningful.
